## SUGGESTIONS

The demand upon institutions of learning are broadening year by year, and equipment and endowment must be increased to keep pace with the demands. Alfred forms no exception to the rule. With the assistance of her friends she has been enabled to meet all requirements in the past. Relying upon a continuation of that kindly interest in her work, there is here presented for consideration a variety of channels in which substantial aid in meeting the demand of the future may be directed. Those who wish to perpetuate their usefulness and their memory, and make their deeds live after them, cannot better do so than by giving or bequeathing something to Alfred University is one of the following ways:

**INCREASE IN THE GENERAL ENDOWMENT FUND**, the income of which shall be at the disposal of the University for its general expenses.

**THE CENTENNIAL FUND** was established in 1899 with the expectation that it will amount to \$100,000.00 when the University shall celebrate its centennial. Gifts to this fund may be made from \$1.00 to \$100.00.

**THE ENDOWMENT OF PROFESSORSHIPS.** Twenty-five thousand dollars will fully endow a professor's chair.

**THE ENDOWMENT OF SCHOLARSHIPS** to pay the term bills of worthy, but needy students. One thousand dollars will endow a scholarship.

A scholarship may be instituted conditionally upon the payment of one hundred dollars and kept alive by the payment of not less than twenty-five dollars every two years thereafter, until one thousand dollars shall have been paid; and the beneficiary will be credited on his tuition charges with the income of the fund. In the case of scholarships founded by societies, if twenty-five dollars or more be added to the principal annually, the beneficiary will be granted free tuition, but incidental and extra fees must be paid in cash by the beneficiary.

**A LIBRARY BUILDING** which will cost, say \$25,000.

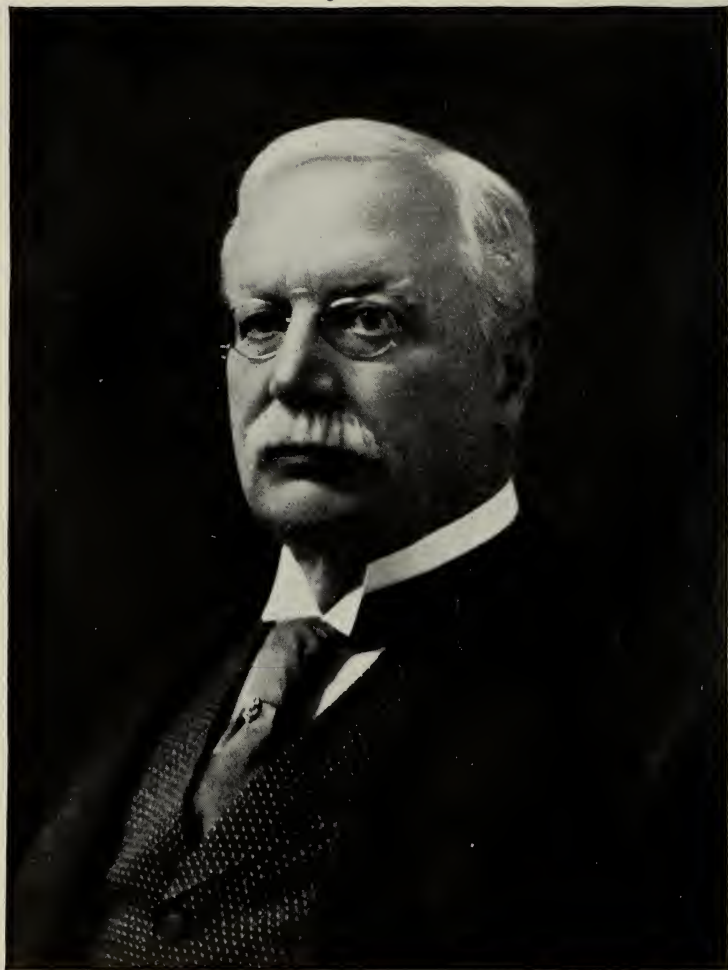

The gift of books and of moneys to buy books.

Every gift will be used as the donor may direct. The giver of fifty dollars or more will be asked to allow his name to be used in connection with the gift in the reports of the University

## PRESIDENT'S ANNUAL REPORT

TO THE BOARD OF TRUSTEES OF ALFRED UNIVERSITY :

The President has the honor to submit his twelfth annual report, viz: for the year beginning June 5, 1906, and ending June, 4, 1907.

### NECROLOGY

During the year death has bereaved the University of two of its able and distinguished trustees.

Albert Langworthy Chester was born in Hopkinton, R. I., October 10, 1841, and died at his home in Westerly, R. I., June 29, 1906.

Mr. Chester was educated in the common schools and the academies at Westerly, R. I., and Berwick, Me. He served his country by enlisting in the Civil War, and was subsequently honored by his fellow citizens by election as senator in the Rhode Island state legislature.

He was a business man of wide experience and recognized ability, and held many positions of honor and trust in the business enterprises of his city and community. To matters of philanthropy, also, Mr. Chester gave much able assistance. He was a trustee of the Wilcox Memorial Library of Westerly. He was for many years a member of the Board of Managers of the Seventh-Day Baptist Missionary Society, and for a number of years was its treasurer.

In 1905, Mr. Chester was elected a trustee of Alfred University to fill the unexpired term caused by the death of Silas C. Burdick. His rare business sagacity, and executive ability made him a valuable trustee.

Thomas Edgar Stillman was born in New York City, March 23, 1837, and died September 4, 1906, at Lisieux, France. He was a son of Alfred Stillman of New York City, and a nephew of the late Thomas B. Stillman, for many years a trustee of Alfred University and the contributor of the first endowment money given to the University.

When Thomas Edgar was a boy of thirteen his father lost his life by an explosion upon a river steamer in New Orleans. The boy attended school at the Free Academy of New York City until 1853. He was then sixteen years of age and his uncle, Thomas B. Stillman, sent him to Alfred Academy. Here he remained two years and graduated with the class of 1855. Two years later he entered Madison, now Colgate University in the junior class and graduated in the classical course in 1859. He then studied law and entered the legal profession.

For more than forty years he was actively and successfully engaged in the practice of law and won high distinction not only in the local courts, but in the Supreme Court of the United States.

The later years of his practice were devoted largely to corporate law, and to the administration of large corporate interests. He was everywhere recognized as an able lawyer and as a man of high moral and ethical ideals.

He retained a warm affection for Alfred University as his first Alma Mater, and rendered valuable service by returning to lecture in the University, and by generously contributing to the needs of the University.

In June, 1906, he was elected a member of the Board of Trustees. His untimely death is a sore affliction, and entails great loss to the University. A distinguished and loyal alumnus and an able trustee has fallen from the ranks, and left vacant a place hard to fill.

The death of these two esteemed trustees is the only loss by death from the official ranks, or from the student body of the University, during the year. For the preservation of the life and health of the students and faculty we are brought under renewed obligations for gratitude and thanksgiving to the God of all mercies.

#### FACULTY

The college faculty has remained during the year the same as reported one year ago. The high standard of excellence in former years has characterized the work of the faculty during

the past year. The department of Biology, under the direction of Dr. A. W. Kelley, who was elected to this professorship one year ago, has been enlarged along botanical lines, and a new green house has been installed and made to contribute to this work.

In the Academy an additional teacher has been placed on the faculty to take charge of the History and Modern Language work. This addition admits of the introduction of chemistry and other new subjects in the Academic curriculum. The Academy, under the principalship of William S. Maxson, is continuing to merit the approval of the State Department of Education, and to produce most gratifying results as a college preparatory school.

#### CHANGES IN THE FACULTY

An unusual number of changes will occur in the faculty for the coming year. Two reasons chiefly are responsible for these changes.

1st. The low rate of salary which we are compelled to pay as compared with many other colleges, makes promotion to positions paying larger salaries seem desirable if not absolutely necessary.

2d. A number of our teachers are young people who have not yet fully completed their educational preparation, and some are resigning to take up graduate work.

The report of the committee on Teaching Force will take up these individual cases, and make recommendation for filling the vacancies, but the President must point out the fact that a very serious problem confronts the trustees in the matter of the constantly increased cost of living expenses, and the consequent advancing salary rates which are paid by public schools and colleges all about us. This must necessitate an early provision on the part of the trustees, to increase salaries sufficiently to hold a larger proportion of our faculty for a longer term of service.

If Alfred shall be accorded admission to the Carnegie Foundation for the Advancement of Teaching, as now seems probable, it will greatly aid in the solution of this problem by guaranteeing to members of the faculty who shall have reached the age limit of sixty-five years, or who shall have taught at least twenty-five years, a pension for life. This will relieve the anxiety to provide against years when earning power shall be reduced or shall have passed entirely.

But even with this additional aid in holding our teachers, early provision must be made for increasing salaries to better compare with like teaching positions in other institutions of learning. The only feasible method for such provision is by increased endowment.

#### REGISTRATION

The registration for the past year has been as follows:

College.....	143
State School.....	46
Academy.....	124
Seminary....	13
Specials in Music.....	15

Total ..... 341

Of this total registration 40 are duplicates leaving a total registration of 301 different individuals during the year.

It will be observed that this is a larger college registration than any previous year, and it may be of interest to note also that the senior class, numbering 26 members, is the largest class to be graduated in many years.

The prospects for the entering class for next year, judging by the correspondence already in progress, indicates a growing popularity of both college and the ceramic school, and a constantly enlarging enrollment may be expected.

#### EDUCATIONAL POLICY

During the past year many pedagogical questions have been under consideration by the faculty and some have been adopted which look toward raising the standards of preparation for entrance to college, and for securing a more uniform standard of excellence on the part of students in the college courses, and particularly those who come to us and desire to register for a few special courses, but not to become candidates for degrees.

The increase in elective studies in college, and the almost universal policy of colleges in giving the A. B. degree without requiring Greek, is likely to compel such action on the part of Alfred University, though our faculty has been reluctant to take such a step.

#### IMPROVEMENTS TO BUILDINGS AND EQUIPMENT

The most important improvement to the plant of the University is the construction and equipment of a modern bath and toilet room in Babcock Hall. This was suggested by Mr. George L. Babcock, a member of the Junior Class, who

also generously offered to meet the cost of putting in this improvement. The work has been excellently done, and has been paid for by Mr. Babcock at a cost of \$750. In addition to this Mr. Babcock has contributed \$250 for the purchase of additional apparatus for the department of Physics, and has also presented the department with a number of valuable separate pieces of laboratory apparatus.

A commodious "green house" has been built in connection with the basement of the Steinheim Museum which will greatly increase the facilities for scientific work in Biology and Elementary Agriculture. Other minor improvements have been made, including recalsomining of the old chapel, the cost of which has been met by the Junior class.

#### THE BETTERMENT FUND

The report from the Committee on Betterment Fund will give, in fuller detail, the work of this committee and the progress that has been made. The President is pleased to report that many alumni and friends have generously responded with contributions and pledges to this fund, and that it is well begun. Many others have given assurance that they will in the near future make specific pledges to this fund. It is a stupendous undertaking, and I think, all things considered, we should feel gratified with the results, and find much encouragement to believe that if the movement is faithfully pushed by the trustees in the coming year, we may within the next twelve months complete the fund and secure the library building, conditionally offered by Mr. Carnegie.

The President would recommend that the Trustees determine at this meeting upon a location for the proposed new Library, and authorize the selecting of an architect to make preliminary plans for the building. This will, I am sure, greatly facilitate the work of the committee in soliciting funds.

Grateful acknowledgment is hereby made of the valuable services rendered by the members of the general committee on the Betterment Fund, and by the various sub-committees who have co-operated with the general committee; also to the many individuals whose personal pledges and contributions to the Fund have cheered the heart of the President, and swelled the Fund to twenty thousand dollars.

With profound gratitude for the divine blessing which has attended the activities of our beloved University during the past year, and with much appreciation of the confidence and co-operation of the trustees in all these twelve years of our labor together, this report is respectfully submitted.

BOOTHE COLWELL DAVIS, President.

## REPORT OF CURATOR OF ALLEN STEINHEIM MUSEUM

TO THE PRESIDENT OF THE UNIVERSITY :

Several important changes and improvements have been made in the museum building during this year and some valuable accessions made to the general museum collections.

### THE BIOLOGICAL LABORATORY AND CONSERVATORY

The basement of the main building has been most thoroughly renovated throughout; a cement floor laid; the walls and woodwork painted and new steps built; thus providing an additional laboratory and general work room. Also a glass covered conservatory 15x35ft, connected with the basement laboratory has been built, which affords valuable facilities for the studies in life-work, both in plant and animal life.

### ENTOMOLOGY

A new case has recently been completed to contain the entomological collection.

### ORNITHOLOGY

This collection is in excellent condition and has received some additions. Thirty-five new specimens having been added this year, mostly birds of the southwestern states, a number of which are typical prairie birds. These were donations by the Curator.

### SACRED CASE

Which contains idols and various religious relics has been rearranged and a few additions received, viz: the Burmese idol of the Sister of Jugernot. This was formerly a part of famous Lyons collections of gods. Also a small clay idol, the god of West Wind, from South Africa. By the Curator. An incense lamp from an ancient Kaffir Altar, South Africa, by Dr. G. W. Burdick of New York.

### ARCHAEOLOGICAL CASE

Several fine specimens have recently been added, viz: a copper kettle (pounded work) found in the Crescent Mound at Marietta, Ohio. Also a stone pipe from Choertin Cliffs, Central America, the carving of which indicates that it belongs to the Cliff dwellers era of that section.

A terra cotta figure, the Water bearer, modeled by a native Aztec of Western Mexico. Rev. Robert Hall of the Bureau of Ethnology regards this as one of the finest specimens of native Aztec work. In 1900 the Bureau of Ethnology published a photogravure of this figure. These were donated by the Curator.

#### STEINHEIM DEPARTMENT LIBRARY

The Steinheim Laboratory has a number of reference books which have been drawn from the University Library, also quite a number of books not catalogued in the University Library. The present Curator has donated to Steinheim Library a collection of general science works (about 200 Vols.) This collection of books are placed in case No. 3 in the general lecture room, where the donor would be pleased to have them remain so long as this room is used for its present purposes.

In addition to this collection a few antique books have been placed in the case on the first floor of the general museum.

#### HERBARIUM CASE

This collection is in good condition but not satisfactorily catalogued. About 300 specimens have been added this year, mostly plants of the Great Lakes region.

#### MISCELLANEOUS COLLECTIONS

We note with pleasure that friends of the University have kindly remembered the Museum with their gifts. During the year we have received:

An old school reader (1798) by Wm. Wood of Belmont, N. Y.

Two silver wood darts used by the Patagonian Indians; also a fine specimen of petrified wood from the stone forests of Arizona, by Mary L. Green of Alfred, N. Y.

Set of candle moulds by Rev. Samuel D. Davis, Alfred, N. Y.

Antique saddle bags by Mr. Marion Hefter of Hornell, N. Y.

Copy of letter written by W. C. Kenyon and Ira Sayles regarding C. P. Robinson in 1849.

Surveyors transit, the first one used at Alfred University, used by Prof. Evans, an early professor of Mathematics in the College. Donated by Ora J. Davis.

Respectfully submitted,

ALBERT W. KELLEY, Curator.

Sixteen College students have taken Biblical and Theological subjects in the Seminary.

Addresses have been given to the members of the Seminary as follows: Rev. Alonzo G. Crofoot of Independence, on The spiritual life—its importance and cultivation; Rev. Benjamin F. Rogers of Alfred, on Lessons from a pastor's experience; and Rev. Dr. Abram H. Lewis of Plainfield, N. J., three, on Messiahism, and The spiritual value of the Sabbath.

Two persons, one a pastor, have done Correspondence Work.

The Seminary was represented at the Convention of the Religious Education Association held in Rochester, February 5-7, 1907; and at other religious and educational conventions.

#### CHANGES IN THE FACULTY

Greatly to our regret Professor Gamble will retire from the department of Church History and Homiletics, on account of continued ill health; but we hope to retain him as Professor emeritus, and as Lecturer on, and Compiler of, Denominational History. Rev. Wayland D. Wilcox, A. B., B. D., a graduate of the University of Chicago, is recommended to become Professor of Homiletics, and Public Speaking, and Instructor in Church History. Rev. Walter L. Greene, A. M., B. D., is recommended to take the professorship of Church History, and Religious Pedagogy, after one or two years of graduate work. Mr. A. Neil Annas, Ph. B., a graduate of the New England Conservatory of Music, will be the teacher of Music.

You are referred to the Treasurer for a statement of the Seminary's financial condition.

On the whole, the year has been the best since the organization of the school in 1901.

Respectfully submitted,

ARTHUR E. MAIN, Dean.

## ACADEMY REPORT

TO THE PRESIDENT OF ALFRED UNIVERSITY:

I respectfully submit the following:

After a year's trial of the new course of study I can give a very favorable report in regard both to quality and quantity of work done.

By the purchase of additional apparatus for physics and biology, the Science department of the Academy has been greatly strengthened and now offers advantages in laboratory work equal to any school of like grade.

The fine working library purchased a year ago, with the additions made during the year, has proven of the greatest value to the Academy.

The Academy with its four years' College preparatory courses needs additional recitation room and a larger study hall and I suggest the use of the Academy chapel for the study hall leaving the present study hall for a recitation room.

The students are pursuing their studies in a more regular and systematic order and the standard of scholarship is being raised. A desire among the students to pursue and complete some full course is being aroused.

During the year one hundred and twenty-four Academic students have been enrolled. The attendance and deportment of whom has been excellent.

The prospect for the coming year, both in attendance and work, looks bright.

Very respectfully,

WILLIAM S. MAXSON, Principal.

## REPORT OF THE LIBRARIAN

### TO THE PRESIDENT AND TRUSTEES OF ALFRED UNIVERSITY:

I have the honor to present the following report of the University Library for the year 1906-1907:

There have been drawn from the Library 4,972 volumes. Books have been drawn by 281 individuals, and 230 pamphlets have been drawn.

There have been added to the Library 1,237 volumes, of which 450 were bought and 767 presented. The number of pamphlets added is 700. The total number of volumes in the Library is 20,635.

The contributions include 465 volumes bequeathed to the University by the late Miss Lucinda Ford, and a set of the Records of the War of the Rebellion presented by the Hon. Henry E. Turner.

## TREASURER'S REPORT

TO THE TRUSTEES OF ALFRED UNIVERSITY :

GENTLEMEN:—The annual report of the Treasurer for the fiscal year ending May 31st, 1907, is herewith transmitted to you.

Schedule 1 is a summary of the Income Report. Schedules 2, 3, 4, 5, 6, 7, 8, 9 and 12 furnish the details. Schedule 12 furnishes a statement in detail of the receipts and disbursements for account of the Theological Seminary. Schedule 10 is a statement of the debt. Schedule 11 shows the amounts standing to the credit of the several special funds.

Schedule 13 is a summary of the Endowment held by the Treasurer. The schedules following give details relating to this endowment. Additions made to the endowment during the year just closed are set forth in detail in Schedule 18.

Those not familiar with the numerous funds held by the Treasurer will find explanations in Schedules 14, 15, and 16, which, if read before the Income Report is studied, will facilitate the study of the latter.

Very Respectfully,  
WILLIAM H. CRANDALL, Treasurer.

## ACKNOWLEDGMENT OF GIFTS

### The Centennial Fund

This fund, the plan for which was first presented to the attention of the friends of the University seven years ago, reached the sum of \$4,708.00 on June 1, 1907. This amount has been contributed in 1656 separate contributions, thus showing the popularity of the plan. It is hoped every friend of higher education and of Alfred University will make a contribution to this fund.

Whenever one thousand dollars are subscribed and paid into the Centennial Fund from any town in the counties of Allegany and Steuben, or from any county in any state or territory, free tuition will be given to one student for the Freshman year of the College; the student to be a resident of the town or county contributing the money, and to be selected by competitive examination.

### One Thousand Dollar Scholarships

[Act of 1894]

During the year two scholarships have been established conditionally, \$3,453.54 have been received on principal account, of which \$2,328.54 was paid on account of Scholarships previously founded, and \$1,125.00 on account of new Scholarships. See Treasurer's Report for details, schedule 15, page 39, and schedule 18, page 43.

September, 1906. THE CHARLES EUGENE HULL MEMORIAL SCHOLARSHIP was established conditionally by his daughter, Myrtle Belle Hull, as a memorial. \$125.00 has been paid. Mr. Hull matriculated in 1874 and after leaving school became a prosperous merchant in Scio, N. Y., and one of the town's most influential citizens.

May, 1907. THE ELIZABETH GORTON MIDDAGH MEMORIAL SCHOLARSHIP was established by John E. and Henry G. Middaugh as a memorial to their mother. Mrs. Middaugh was a graduate of the class of '62, and later received the degree of

A. M. She became very much interested in education and especially in her Alma Mater and made a large sacrifice that her sons could receive a college education. Mrs. Middaugh was a gifted literary woman, an active member of various Women's Clubs, and was frequently called upon to deliver lectures and addresses upon literary and patriotic subjects.

### The Francis Asbury Palmer Fund

On Feb. 21st, 1907, the Trustees of the Francis Asbury Palmer Fund appropriated the sum of \$1000 from the increase of this fund to Alfred University to found a permanent fund, the income of which is to be used for the benefit of Alfred University as its Trustees may direct.

By vote of the Trustees of the University the fund thus started was designated the FRANCIS ASBURY PALMER FUND IN ALFRED UNIVERSITY.

Francis Asbury Palmer was born Nov. 26, 1812 of Pilgrim and Puritan Ancestry. At nineteen years of age he began a business career in New York City which was notable as well for its uprightness, ability and length as for its financial success.

He was one of a company of successful men who formed the National Broadway Bank of which he was president for over fifty years. He also organized the Broadway Savings Institution, of which he was president at the time of his death.

Mr. Palmer was a Christian and a generous philanthropist. He contributed during his life time to many schools and colleges, and had made a verbal promise to the President and Treasurer of Alfred University to include Alfred among his benevolences. The starting of the Francis Asbury Palmer Fund in Alfred University is a result of that promise.

Mr. Palmer died Nov. 1st, 1902, when nearly ninety years of age.

"The consummation of his good-will, beneficence, and exalted Christian aim and hope was attained in the founding of the Francis Asbury Palmer Fund, a noble trust organized as an undenominational institution, and conducted in the Masters' name for the encouragement of education and the service of Christianity in America."

## Gifts

The Greenmanville Seventh-day Baptist Society have given \$250 to the Seventh-day Baptist Education Society, the income of which is to be paid to Alfred University to be used for the benefit of the University.

## Betterment Fund

At the annual meeting of the Board of Trustees in June, 1906, a resolution was adopted establishing a Betterment Fund, to aggregate when completed one hundred thousand dollars. This Fund is to include the conditional gift from the Hon. Andrew Carnegie of \$25,000, for the construction of a library building; also funds to liquidate the indebtedness of the University, and to make improvements to buildings and equipment, and to increase the endowments. Over fifty thousand dollars, including Mr. Carnegie's pledge, have been subscribed toward this fund during the year. \$4,914 25 have been received on account of this fund during the fiscal year ending May 31, 1907,—see page 31.

## Bequests

LUCINDA FORD, (1843-44). 465 volumes given to the University by Miss Ford have been received by the Library. See Librarian's Report, page 22.

GEORGE S. GREENMAN. \$2,000 have been received from his executors, and the same have been passed to the credit of the BETTERMENT FUND. See YEAR BOOK for 1905-06, page 54.

OLIVE STEEL THRALL CLARK LANPHEAR (widow of Ethan Lanphear). \$520 have been received from the executors, and the same has been passed to the credit of the GENERAL FUND. See YEAR BOOK for 1903-04, page 51.

SARAH E. VINCENT STILLMAN. \$500 have been received from her executors, and the same have been passed to the credit of the BETTERMENT FUND. See YEAR BOOK for 1905-06, page 54.

REV. NATHAN WARDNER, D. D. '45. The suit mentioned in the YEAR BOOK for 1904-05, page 51, was carried on appeal by Dr. Wardner's widow to the Supreme Court of Illinois. In the Supreme Court, as well as in the lower courts, the contention of the widow was overruled—the courts holding that she had a life interest only in the real estate, and that any conveyance made by her would be made subject to the rights of the two societies and Alfred University.

After paying debts and legacies, Dr. Wardner's residuary estate consisted of cash, \$3,219.18; household furniture, \$447.09; and the real estate described below. The use of the residuary estate was given to his widow for life, subject to a life estate in Morton Wardner in part of the real estate as noted below; and the principal of the residuary estate at her death, was given to Alfred University, The Seventh-day Baptist Missionary Society and The American Sabbath Tract Society, in equal shares. The cash and furniture have been paid and delivered to Mrs. Wardner by the executor, Horace Wardner, M. D., who has since died.

Unimproved property: sold in 1906 for \$900, and the net proceeds of \$823 paid over to the Board of Trustees of the Seventh-day Baptist Memorial Fund pursuant to the terms of an agreement under which the net income will be paid to Mrs. Wardner for life; and at her death, the principal will be paid to the two societies and Alfred University as provided in Dr. Wardner's will.

PETER WOODEN FUND. See page 60

### The Following Forms of Bequests are Recommended

I give, devise, and bequeath to ALFRED UNIVERSITY, located at Alfred, New York, the sum of.....dollars, to be safely invested, and called "The..... General Endowment Fund," the net income only to be used for the general expenses of the University.

I give, devise, and bequeath to ALFRED UNIVERSITY, located at Alfred, New York, the sum of twenty-five thousand dollars, to be safely invested, and called "The .....Professorship," the net income only, or so much thereof as may be necessary, to be used to pay the salary of the incumbent of said professorship, the surplus income, if any, to be at the disposal of the University.

I give, devise, and bequeath to ALFRED UNIVERSITY, located at Alfred, New York, the sum of one thousand dollars, to be safely invested, and called "The.....Scholarship," the net income only to be used for the payment of the term bills of some worthy and needy student; the surplus income, if any, to be at the disposal of the University.

I give, devise, and bequeath to ALFRED UNIVERSITY, located at Alfred, New York, the sum of.....dollars to be expended in the purchase of books for the Library.

### Income Gifts

These gifts are absolute; but the giver, or a person named by him, receives from the University, each half year for life, an income at a rate per cent. of the gift, agreed upon in advance, in place of the interest which the money would have earned if the donor had invested it.

A form of agreement has been prepared, adapted from a form which has been used for many years by one of the largest missionary societies in this country. That society has received hundreds of thousands of dollars in this way, and the plan has worked to the mutual satisfaction of the donors and the society.

Gifts made in this way are not subject to Inheritance Taxes, which, in many states, materially diminish gifts made by will.

For details of gifts see Treasurer's Report, Schedule 16, page 42.

### Income Gift Agreement

MEMORANDUM OF AGREEMENT made and entered into BETWEEN (John Doe) of (Ashaway) in the County of (Washington) and State of (Rhode Island) of the first part, and ALFRED UNIVERSITY, a corporation organized under the laws of the State of New York, of the second part.

WITNESSETH; The said (John Doe) desiring to make a donation of (Five Hundred) dollars to said ALFRED UNIVERSITY hereby pays to it, and ALFRED UNIVERSITY receives that sum as an absolute gift (subject only to the agreement of ALFRED UNIVERSITY hereinafter expressed), to be devoted to the corporate purposes of said ALFRED UNIVERSITY.

AND, in consideration thereof, ALFRED UNIVERSITY hereby agrees that so long as said John Doe\* shall live, but no longer, it will pay to him the annual sum of (Twenty-five) dollars in semi-annual payments as follows: (\$12.50) on the first day of (January) next, and (\$12.50) at the expiration of each six months thereafter.

Such payments shall be made at the office of the Treasurer of ALFRED UNIVERSITY, at Alfred, N. Y., upon reasonable demand, or, at the option of the party entitled thereto, they shall be remitted to him by ALFRED UNIVERSITY in any ordinary or usual way, as instructed, and within ten days after instructions received from him.

IN WITNESS WHEREOF, the said (John Doe) has set his hand and seal, and ALFRED UNIVERSITY has caused this agreement to be executed in its corporate name by the President of its Board of Trustees, and its corporate seal to be hereunto affixed and attested by its Secretary, this first day of July in the year of our Lord, one thousand nine hundred and two.

In presence of

(John Doe) [L. S.]

ALFRED UNIVERSITY,

(Thomas Brown) as

by (Albert R. Cottrell)

to (John Doe)

President of its Board of Trustees.

(Seal)

Attest (Charles Stillman)

Secretary.

\*Or Martha Doe, his mother.

NOTE.—The above is the form of agreement which has been adopted. For illustration, the form has been filled in, in parenthesis, as an agreement with respect to a gift from "John Doe,"

## TRUSTEE MEETINGS

June 4, 1907

The annual meetings of the Trustees of Alfred University were held at Kenyon Memorial Hall, Tuesday, June 4th, 1907, the following Trustees being present: E. E. Hamilton, P. B. McLennan, Orra S. Rogers, B. C. Davis, W. H. Crandall, Daniel Lewis, C. C. Chipman, A. A. Shaw, W. R. Clarke, D. S. Burdick, V. A. Baggs, L. C. Randolph, O. M. Rogers, Mrs. W. C. Burdick, C. Stillman.

The reports of officers of the Board and of the Faculty and the committees of the Board were received and adopted.

Treasurer William H. Crandall's report showed that the net debt of the University is \$56,057 30.

A communication from Arthur E. Main, Dean of the Theological Seminary, was read, in which he asked permission to devote the months of February, March and April of each year to the preparation of the manuscript for a book, viz., A Manual of Biblical Theology.

It was voted that the Trustees express their approval of Dean Main's plan to write a Manual of Biblical Theology, and extend their thanks to him for his disposition to do so; and that the arrangement of the details be left to the Faculty of the Theological Seminary and subject to the approval of the President of the University.

The Faculty of the Theological Seminary presented a communication in which they recommended the conferring of the Degree of Bachelor of Divinity on the following gentlemen, who have completed their course in the Seminary: Rev. Ahva J. C. Bond, A. B.; Rev. Henry N. Jordan, A. B.; Rev. Edgar D. VanHorn, A. B.

The committee on nominations named the following officers: president, Albert B. Cottrell; vice president, Elwood E. Hamilton; treasurer, William H. Grandall; secretary, Charles Stillman.

Professor Edward M. Tomlinson, Librarian, reported that there have been 1,237 volumes added to the library during the year, of which 450 were bought and 767 presented. The total number of volumes in the Library is 20,635. The contributions include 465 volumes bequeathed to the University by the late Miss Lucinda Ford and a set of the Records of the War of the Rebellion presented by the Hon. Henry E. Turner.

On motion the question of locating the site for the new library building was referred to the Executive Committee with power.

It was voted to confer the Honorary Degree of Doctor of Laws on Hon. Samuel R. Thayer, and Doctor of Divinity on Professor William C. Whitford.

Committee on Betterment Fund was continued.

## SCHOLARSHIPS

The fees that students in Alfred University are required to pay are known as tuition fees, incidentals, and extra fees. The following statement shows the total tuition and incidental fees charged in the college, the allowances on account of scholarships, and the cash paid by students in each of the last five years :

YEAR	TUITION AND INCIDENTAL FEES	SCHOLARSHIPS	CASH
1902-03	3,197	1,230	1,967
1903-04	3,214	1,304	1,910
1904-05	3,525	1,468	1,926
1905-06	4,737	2,118	2,619
1906-07	5,216	1,941	3,275

Three systems of scholarships are in force in the University as follows :

**TEN PER CENT. SCHOLARSHIPS.** These were established many years ago on the following terms : The University agreed to pay, by allowance upon tuition fees, ten per cent. per annum on moneys donated to its funds ; but the founders of the scholarships were not to use them to the detriment of the University by selling, renting or leasing them, although they might donate the use of them to any person or persons who depended entirely upon their own exertions to defray their educational expenses. Incidental and extra fees, however, must be paid in cash by the beneficiaries of the scholarships.

**ONE THOUSAND DOLLAR SCHOLARSHIPS. ACT OF 1894.** These may be established conditionally on the payment of \$100, and they will continue in force so long as payments are made amounting to at least \$25 in two years, but they become permanent when the sum of \$1,000 is fully paid. The owner of a scholarship is entitled to keep one student in attendance at the University whose tuition fees, incidental fees, and extra fees, will be paid out of the income of the principal fund, if the income is sufficient to pay the same ; but if not, the remainder of such fees must be paid in cash by the student. Societies endowing scholarships conditionally, and paying at least \$25 a year toward the principal, will be allowed free tuition fees for one student every year, but the student must pay incidental and extra fees in cash.

**COMPETITIVE FREE SCHOLARSHIPS.** These are granted, under certain conditions, to pupils in the High Schools in the counties of Allegany, Steuben, Cattaraugus, Livingston and Wyoming, New York ; and the counties of McKean, Potter and Tioga, Pennsylvania. They are limited to students fully prepared for college, and exempt the holders from payment of tuition and incidental fees, but require the payment in cash of the nominal sum of \$2 a year.

**HONORARY DEGREES****DOCTOR OF DIVINITY****WILLIAM CALVIN WHITFORD**

The name of Professor Whitford was presented by Dean Main who said:

Mr. President: A graduate of Colgate University and of Union Theological Seminary; a Phi Beta Kappa for excellence of scholarship; professor of the English Bible in Alfred University and of the Hebrew and Greek in Alfred Theological Seminary; a personal friend for many years, unselfish and true; a fellow-teacher for six years, in relations of harmony absolutely unbroken; not only a man of Greek and Hebrew, of language and literature, but a man of affairs and of public spirit; a scholar catholic and thorough in spirit and method; a Christian gentleman with an untarnished name, the Reverend and Professor William C. Whitford, A. M., is one whom I am glad to commend to you for the honorary degree of Doctor of Divinity.

President Davis said:

Professor Whitford, son of Colgate, and of Union Theological Seminary, your superior training for your chosen profession has been amply proven by the fourteen years of scholarly service you have rendered to the University of your adoption.

During these years you have faithfully and ably conducted your investigations and expounded your subjects. All your work has been characterized, not only by high minded Christian character, but by a breadth of learning rarely attained.

In recognition of this distinguished service, Alfred University gladly admits you to the degree of Doctor of Divinity, and all the rights and privileges belonging thereto. My task in conferring the degree, gives an added pleasure, because of the pleasant relations we have sustained as colleagues on this faculty for the past twelve years, and because of the faithfulness with which you have supported the President in all his work.

William Calvin Whitford was born in Brookfield, Madison Co., New York. He graduated from Colgate University with honor, and was among those elected to membership in the Phi Beta Kappa Society. He entered Union Theological Seminary, New York, from which he was graduated in 1892. At the beginning of the college year, 1893-4, he assumed the work of the professorship of Biblical Languages and Literature in Alfred University, a position which he still holds. Upon the organization in 1901 of the Alfred Theological Seminary, Professor Whitford was assigned to the chair of Biblical Languages and Literature in that institution also. He is editor of the *Helping Hand*, a Sabbath School Lesson Quarterly published at Plainfield, N. J.

#### DOCTOR OF LAWS

#### ALBERT HAIGHT

Judge Haight was presented by Justice Peter B. McLennan, presiding justice of the Appellate Division, Fourth Department, Supreme Court, who said:

Mr. President: Because of the unanimous vote of the trustees of Alfred University it is my privilege to nominate Albert Haight of Buffalo, Judge of the Court of Appeals of the State of New York, as a candidate for the degree of Doctor of Laws. In thus conferring such distinguished honor upon him, I feel that the University is honoring itself. There are few who are more worthy and who are more truly entitled to the distinction which such a degree implies.

He was born in the adjoining county, at Ellicottville, N. Y. His preliminary education was acquired in the common schools and at Springville Academy. So far as known he was the ordinary boy, but he early developed traits indicating that he was to be a man of affairs and soon after reaching his majority he represented his town in the Board of Supervisors, which office he held for several years. At the age of thirty years he was elected to the office of County Judge of Erie County and held

that office until elected a Justice of the Supreme Court in 1876. He was assigned to duty on the General Term from 1884 to 1889 and until he was appointed as Associate Judge of the Second Division of the Court of Appeals. In 1895 he was elected Judge of the Court of Appeals where he has since served. It thus results that our distinguished guest has seen longer continuous service on the bench than any other in the State now living. But his long continued service is not at all the distinguishing feature of his career, but rather his faithful, conscientious devotion to duty.

Judge Haight has always been known as a man of sound judgment, faithful in the discharge of every duty and true to the highest ideals of a sturdy manhood. By his patience, laborious study and high ideals of judicial ethics he has come to be regarded as one of the greatest jurists in the State, so constituted that he could ever lend a sympathetic ear to the cry of the oppressed when such should avail, and as sternly resolute to enforce the law regardless of individual considerations when its majesty and power were at stake.

Judge Haight for more than a third of a century has worn the judicial ermine with honor to himself and with glory and credit to the Empire State. In him is illustrated the wisdom of the makers of the constitution in declaring that the judiciary shall be one of the three great branches of the government and have the power to ultimately control and define the powers of the other two. In all the crises which have occurred during almost half a century, in all the upheavals, political and otherwise, which have taken place in our body politic, our distinguished guest has stood erect, a Judge, unmoved and unaffected by the blandishments of the few or the unreasoning demands of the many, his sole purpose and object being to see to it that the Constitution was rightly construed and that the laws of the State were interpreted in such manner as that justice should be done between individuals. No man has had a greater part in interpreting and formulating the laws and declaring the rights of individuals and of corporations than has he. His vote, his influence, has always been with and upon the side of the people where permitted by the mandate of the Constitution, always on the side of right and for the betterment of humanity. Pure in his home, pure in public life, able in the

discharge of every duty which has come to him, is the tribute which is paid to our distinguished guest by all who know his work, worth and life.

It gives me very great pleasure to propose that the degree of Doctor of Laws be conferred upon Albert Haight by Alfred University.

President Davis said:

Judge Haight, son of Western New York, Senior Justice of the Empire State, distinguished member of the Court of Appeals, Alfred University is honored by your presence here today, and gladly welcomes you to adoption as an honorary alumnus.

Your thirty-five years of Judicial service, and the steady promotion you have won, until you have reached the highest tribunal in the judiciary of the State, is ample reason for the bestowal of the scholastic honor which Alfred University is pleased to confer. I therefore gladly admit you to the degree of Doctor of Laws in this University, with all the rights and privileges belonging thereto.

Albert Haight was born in Ellicottville, N. Y., 1842; educated at Springville Academy; admitted to the bar in 1863; has held several offices and was elected county judge of Erie County in 1872; justice of the Supreme Court of the Eighth Judicial District in 1876 for a term of fourteen years, and re-elected in 1890; in 1894 he was elected to the office of associate judge of the Court of Appeals for a term of fourteen years, which expires in 1908.

### EDWARD WINGATE HATCH

The name of Judge Hatch was proposed by the Hon. Daniel Lewis, M. D., LL. D., of New York, who said:

Mr. President: It now becomes my privilege, and I esteem it a very great honor, to propose to you the name of the Orator of this semi-centennial occasion for the honors of this University.

After listening to the able oration of the distinguished gentleman, an introduction to you and to this audience, of Judge Hatch, would seem unnecessary. He is a native of your own county. He is distinguished for learning, ability and character. He has filled the high office of Justice of the Supreme Court of the Empire State.

He is a recognized authority on Corporate and Constitutional law in the metropolis of the State.

His exposition of constitutional law in the oration just delivered gives him rank among the greatest jurists of our day.

It is therefore a supreme pleasure to name to you the Hon. Edward W. Hatch of New York City and to propose for him the honorary degree of Doctor of Laws in Alfred University.

President Davis said:

Judge Hatch, distinguished son of Allegany county and honored citizen of Western New York, Master of Constitutional and Corporate law, Orator of this semi-centennial commencement, Alfred University bids you welcome.

The scholarly and patriotic oration with which you have honored this occasion is an epoch-making utterance, and future years will recognize it to be a classic in the exposition of constitutional law.

Your right to scholastic honors needs no added justification; but sir, your service as Justice of the Supreme Court of the state, and your high minded devotion to public justice and equity give you rank among the foremost of your countrymen. I therefore gladly admit you to the degree of Doctor of Laws in this University, with all the rights and privileges belonging thereto.

Thereby Alfred University enrolls you with her honorary alumni; and in behalf of the University, its Trustees, Faculty, Alumni, and particularly in behalf of its Senior class, I extend to you our sincere thanks and grateful appreciation for the notable service you have this day rendered to Alfred University

Edward Wingate Hatch was born at Friendship, N. Y., Nov. 26, 1852; admitted to bar, Buffalo, 1876; district attorney, Erie County, 1881-86; judge Supreme Court of Buffalo, 1887-95; judge Supreme Court of New York, 1896; term expires, Dec. 1909; appellate division Supreme Court, second department, Brooklyn, 1896-1900; appellate division, first department, New York, 1900. Judge Hatch resigned his office as Supreme Court Justice and is now a member of the firm of Parker, Hatch and Sheeham, of New York.

## WALTER LLOYD SMITH

The name of Judge Smith was presented by Professor Binns, who said:

Mr. President: Many times upon this platform allusion has been made to the commonwealth of colleges which has become so well recognized a fact. We have welcomed to the ranks of our honorary Alumni, men from many of the large Universities, but I do not recall that in recent years we have received a graduate of Princeton. I therefore have especial pleasure in presenting to you the name of the Honorable Walter Lloyd Smith of Elmira, Presiding Justice of the Appellate Division of the Supreme Court of the Sixth District of the State of New York, to receive the degree of Doctor of Laws.

President Davis said:

Judge Smith, son of Princeton, distinguished Jurist of the Empire State, Alfred welcomes you among her notable guests at this Commencement. High minded judicial service such as you are rendering is of greatest moment to the welfare of the state and its public and private institutions.

Higher learning must continue in the future as it has done in the past, to exalt such service. It is therefore a pleasure for me, in behalf of Alfred University, to admit you to the degree of Doctor of Laws in this University, with all the rights and privileges belonging thereto.

Walter Lloyd Smith: Judge Appellate Division Supreme Court; born Elmira, N. Y., April 18, 1856; son of H. Boardman and Ellen H. Smith; was graduated from Princeton, 1877; admitted to N. Y. Bar. 1879; married, 1893, Jessie Gonzales. Justice N. Y. Supreme Court since 1888; present term expires 1916; now sitting in the Appellate Division, Third Department. Member Fort Orange (Albany), Elmira City (Elmira), University and Princeton Clubs.

## SAMUEL RICHARD THAYER

The name of Mr. Thayer was presented by Professor Tomlinson in the following words:

Mr. President: The fact has been repeatedly mentioned during these Commencement days that a half-century has passed since this institution received its University charter. We have with us to-day one who fifty years ago completed the prescribed course of study in Alfred Academy, and soon afterwards

entered the Sophomore Class in Union College, now Union University, at Schenectady. Biographical publications refer to his membership in the "Society of Mayflower Descendants" and in the "Huguenot Society of America." These facts remind us of an illustrious ancestry. His own successful career as a member of the legal profession, and his distinguished services as United States Minister to the Netherlands, are regarded with great interest and pride by all friends of Alfred University. I take especial pleasure, Mr. President, in presenting, for the honorary degree of Doctor of Laws, the Honorable Samuel R. Thayer of Minneapolis.

President Davis said:

Son of Alfred and of Union, distinguished diplomatist and United States Minister of international fame and service, Alfred joyously welcomes you back to this fiftieth anniversary of your graduation from this platform, and this semi-centennial of the University charter.

Your notable career for these fifty years has been followed by your Alma Mater with supreme pride and pleasure. Your every personal honor and achievement has reflected credit upon her whose fostering care once nourished you, and whom you honor by your presence here today.

The highest scholastic honor that can be awarded to any man is hereby tendered you in recognition of your service to national and international diplomacy.

I therefore gladly admit you to the degree of Doctor of Laws in this University, with all the rights and privileges belonging thereto.

Samuel R. Thayer was born at Richmond, N. Y., December 12, 1837. His parents were George and Phebe (Wood) Thayer. He was a member of the class of 1857 in Alfred University. He graduated at Colgate University in 1860, and received the degree of Doctor of Laws in 1892. He studied law and was admitted to the bar, 1864. In 1889 he was appointed United States Minister to the Netherlands and held the position for four years. He is a member of Minneapolis Historical Society, of the Mayflower Descendants, New York and Huguenot Society of America. In the fifty years since Mr. Thayer graduated from Alfred, his distinguished services have given him a place among the most honored and esteemed alumni of the University. Address, 901 N. Y. Life Bldg, Minneapolis.

## APPENDIX C

THE ALUMNI ASSOCIATION OF ALFRED  
UNIVERSITY

Incorporated—1886—New York

This Society is incorporated under Chapter 268, Session Laws of New York, 1882, as amended by Chapter 262, Session Laws of 1884.

The Society includes all graduates of the University, all persons who have received degrees from it, members of the Faculty, and former students who have been in attendance for one year or more. The annual fee is one dollar.

The objects of the Society are, to foster fraternal intercourse and sympathy; to keep its members interested in their Alma Mater; to promote the interests of Alfred University; and to raise a permanent fund, which has been named the KENYON-ALLEN ENDOWMENT FUND.

This fund now amounts to nearly \$12,000. The income is used, in part to defray the expenses incident to a course of lectures at the University and in part for the general expenses.

Two forms of pledges toward the principal of the endowment fund have been adopted,—one for the payment of \$1.00 a month for five years, and the other for the payment of \$10.00 a year for ten years. Pledges and contributions in cash are solicited, and will be duly acknowledged and added to the principal of the fund. Remember the Society in your will, making the bequest payable to the Society by its corporate name, to wit, THE ALUMNI ASSOCIATION OF ALFRED UNIVERSITY.

The Society is represented on the Board of Trustees of the University by nine trustees, three of whom are elected each year for a term of three years.

The Annual Meeting of the Society is held on Wednesday of Commencement Week.

Lincoln G. Backus, A. M., '89  
President of the Alumni Association 1906-1907

## APPENDIX D

NEW YORK STATE SCHOOL OF CLAY-  
WORKING AND CERAMICS

## BOARD OF MANAGERS

(University Trustees)

PRESIDENT BOOTHE COLWELL DAVIS,

WILLIAM H. CRANDALL,

JOHN J. MERRILL,

ELWOOD E. HAMILTON,

WILL R. CLARKE

The following is a copy of Chapter 383 of the Session Laws of New York, 1900 :

An act to establish a State School of Clay-Working, and Ceramics at Alfred University, and making appropriation for the construction and equipment of a suitable building and the maintenance of such school for one year.

Section 1. There is hereby established a state school of clay-working and ceramics at Alfred University. For the purpose of constructing and equipping a suitable building for such school at Alfred, New York, the sum of fifteen thousand dollars, or so much thereof as may be necessary, is hereby appropriated to be paid by the treasurer, upon the warrant of the comptroller, upon vouchers approved by the state architect, to Alfred University. No part of such moneys shall be expended until the plans and specifications for the construction and equipment of such building and the location thereof shall be approved by the state architect, nor until the comptroller shall have certified that in his judgment the expense of the completion and equipment of such building in accordance with such plans and specifications will not exceed the amount of such appropriation. Such building and equipment shall be the property of the state. There shall be no tuition charged to students residents of this state for instruction in the school hereby established.

Section 2. For the maintenance for one year of said state school of clay-working and ceramics, the sum of five thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of moneys in the treasury not otherwise appropriated, payable to the treasurer of Alfred University, on the warrant of the comptroller.

Section 3. This act shall take effect immediately.

## DIRECTOR'S REPORT

TO THE PRESIDENT OF ALFRED UNIVERSITY :

Sir : I have the honor to submit to you the Seventh Annual Report of the New York State School of Clay-Working and Ceramics.

In presenting this, the seventh annual report, the Director wishes to point out that the movement in technical education is rapidly extending over the whole country. As regards the special needs of the clay-working industries, when this school was established in 1900, there was but one other in the United States. There are now four, and more are being planned. It is thus evident that the Legislature saw and met a real need. Furthermore, the position gained by the school is a matter for congratulation. The students are sought before they have graduated and the Director is continually in receipt of enquiries and applications for technical information and assistance.

As the quality of clay wares improves, the location of the raw material becomes of less importance, and, while New York State contains no clays suitable for the manufacture of white wares, plants for the production of these wares are locating in the State for the sake of the market and shipping facilities. There are large manufactories in Syracuse, Victor, Buffalo, etc., which ship in all their material, and the school is always on the watch to foster such interests as these.

Large manufactories of terra cotta flourish within this State and these use some local and some distant clays. The makers of brick use largely local clays, as for this class of product it does not pay to ship.

The manufacturers of the State are most cordial in their support of the school. Several of the students have secured temporary work with them in vacation and in many instances the school laboratories have been used for experimental work in the solution of difficult problems. Two cases may be noticed. A manufacturer asked permission to send a consignment of his goods to the school and to have them burned. This was, of course, granted and the Director was informed that, as a result, these wares could now be burned in two days less time for each kiln. A manufacturer sent in a sample of clay and a specimen of defective ware made from it, asking the reason of the trouble. Upon looking into the matter, a letter was written to

the enquirer which at once enabled him to overcome the difficulty and avoid the loss.

There are forty-four students registered in the school, being a very substantial increase over last year. In fact, the school has reached the limit of accommodation and some of the classes are uncomfortably crowded. So far as is known no student who has taken work in the school is out of employment and the Director is constantly in receipt of applications for graduates.

Miss Blanchard resigned her position as Art Instructor at the close of last year and the Managing Board have appointed Miss Alice L. Upton of New York City to fill the vacancy. Miss Upton is well fitted for the position and has entered upon her work with enthusiasm and success.

During the year fifty-two samples of clay have been received for examination. Some of these have, of course, proved to be without value, but others have shown great promise. The clays found in the State are mostly adapted for the manufacture of fire-proofing, roofing tile, paving blocks and building brick, and the rapid advance of the paving brick industry with the great demand for fire-proof buildings offer great opportunities for the utilization of the vast deposits of shales and clays which lie within its borders.

The school has been gradually assembling the available books dealing with the science and art of clay-working. These are not abundant but a good working library has now been secured and will be added to as new works appear.

Your Director attended the Annual Meeting of the American Ceramic Society at Philadelphia and presented two papers. He also attended the University Convocation at Albany, and addressed the Syracuse University Chemical Club.

In June the school was visited by the late Governor Higgins and a distinguished party of friends amongst whom were Ex-Governor Utter of Rhode Island, Senator Tully and Justices McLennan, Kruse, Spring and Smith of the Supreme Court. Governor Higgins examined the equipment of the school with great care and expressed his deep interest in and satisfaction with the work.

In conclusion your Director wishes again to place on record his sense of obligation to the Faculty of Alfred University, for their warm co-operation and assistance.

The financial statement is appended.

CHARLES F. BINNS, Director.

## MEMORIAL OF THOMAS EDGAR STILLMAN

Prepared by Thomas H. Hubbard, his former partner, for the Memorial Volume of the Association of the Bar of the City of New York, from which it was taken. See page 10 of this volume, also.

An erect figure, a little above medium height, compact, symmetrical and muscular; a head usually advanced and thrown a little back, so that the face looked forward and up; blue eyes, shading toward grey; a high forehead, slightly retreating; brown hair, inclined to curl and close-cut; a full mouth with strong even teeth; a cheerful expression that inquired and challenged; a graceful and energetic bearing; a cordial and unreserved address—these are some of the details of Mr. Stillman's portraiture.

An intellect equal to the mastery of difficult problems; a mental tendency to mathematical precision of proof; an apprehension so keen that it sometimes outran the slower processes of logical reasoning; a discriminating fondness for art and poetry and all good literature; an overflowing humor that discovered and presented the comical aspect of things where conventional minds found only the severe and serious; judgment that sought the right and generally reached it, but was at times mastered by sympathy or emotion; exceptional power of mental concentration upon subjects that compelled his interest—these are some of the mental attributes that impressed those who were Mr. Stillman's professional associates or opponents.

A heart warm and almost tempestuous; proneness to extremes of attachment and aversion; disinterested helpfulness towards friends; alacrity to aid the worthy strugglers; eagerness to advance the deserving young; boundless and uncalculating generosity towards those he loved; blindness to the faults of those to whom he was attached and often to the merits of those from whom he was repelled; absorbed devotion to the causes entrusted to this charge—these are some of the elements of Mr. Stillman's character that those observed who knew him well.

Such qualities, backed by unusual physical and mental strength and nervous energy, were sure to make their possessor a marked and formidable factor in any field of effort.

Mr. Stillman was born in the City of New York, March 23d, 1837, and was the oldest of five brothers of whom four survive him.

Their father, Alfred Stillman, was one of the most promising civil and mechanical engineers of his day and one of New York's most public-spirited citizens. He was one of the founders of the Novelty Iron Works, and with others helped to form the first public school society of the city from which later the Board of Education developed. In 1850, while still a young man, he lost his life by an explosion upon a river steamer at New Orleans. His wife was Elizabeth Ann Greenough of Salem, Washington County, New York. His birthplace was Westerly, Rhode Island.

Thomas Edgar as a boy attended public school No. 2 at First Avenue and Ninth Street, of which Mr. Kennedy was principal. In 1848 he entered the Free Academy that afterwards became the College of the City of New York, and continued there until 1853. In that year he was sent to Alfred Academy, now Alfred University, a Baptist institution and a very good one, located at Alfred in Allegany County. There he fitted for college and completed in substance the courses of the ordinary college curriculum for the first two years.

In 1857 he entered the junior class of Madison, now Colgate University, at Hamilton, in Madison County, and graduated with his class, in 1859.

Surviving classmates describe him, as at that period, a young man of positive character; a scholar with abilities of the first order; genial and a general favorite. One of his contemporaries says that he was a healthy looking, athletic fellow; refined in his manner and dressed with precision; that his temperament was such that at times he seemed gloomy and despondent and at other times delightfully cheerful and attractive; that he was fond of music, a good vocalist and member of the college Glee Club; that he wrote and spoke with fluency; was an entertaining conversationalist; was powerful in logic and analysis; that he took a high stand in his class from the outset and maintained it until his graduation.

After graduating from Madison in 1859, Mr. Stillman entered the law office of Mr. Joseph Mason at Hamilton, and remained there as a student until 1862, when he was admitted in that judicial district to the practice of his profession.

Joseph Mason was at one time County Judge of Madison County and was also a member of Congress. His brother, Charles Mason, whose home was at Hamilton, was a judge of the Supreme Court from 1847 to 1868 and a Judge of the Court of Appeals from 1868 to 1870. David J. Mitchell, highly distinguished as an advocate, was practicing at Hamilton during the greater part of Mr. Stillman's residence there. These men, as instructors and exemplars, made a lasting impression upon Mr. Stillman. Much of his success was due to his years of thorough study at Hamilton.

While there he took an effective part in the presidential campaign of 1860 that resulted in Mr. Lincoln's election.

He was a natural orator, eloquent, and convincing, and his work was sought by the Republican Campaign managers. Former Post Master General James, who was one of these, mentions an occasion when Mr. Stillman, on short notice, took the place of a noted orator who was unable to keep an appointment and held a large audience attentive and enthusiastic with a speech of an hour's length.

On leaving Hamilton Mr. Stillman opened an office on Wall Street, in 1862, but in the fall of that year accepted the position of managing clerk with Barney, Butler & Parsons, a leading law firm to which he was not long afterwards admitted as a junior partner.

In 1875 this firm was succeeded by the partnership of Butler, Stillman & Hubbard, with which Mr. Stillman continued until he retired from active practice in 1896, when the firm was changed to Butler, Notman, Joline & Mynderse.

While these firms had at all times an important business and an extended and influential clientage, yet the infusion of Mr. Stillman's energy and ability enlarged their connection and reputation during his active career.

In the earlier years of his profession he gave much of his effort to commercial law and general practice. In the settlement of insurance claims that arose from the Chicago conflagration in 1871 he represented several of the large New York insurance companies and was an important factor in producing results beneficial to the insured and to the companies. In the litigation that followed the financial panic of 1873 he was counsel for important business houses crippled or damaged by the crash. Even after his work was more specialized he gave

his efforts, as time permitted, to cases of this character. The controversies that grew out of the Grant and Ward failure in 1884 were largely guided by his advice. It was at this time that occurred a notable interview in which General Grant, though advised by Mr. Stillman that he could not be held individually liable for the debts caused by Ward's transactions, replied that his name was connected with the firm, that the public relied upon it, and that the creditors should have everything he possessed in the world.

For nearly twenty years Mr. Stillman gave special attention to Admiralty Law and practice. Throughout the seventies and the early eighties he advanced gradually to a leadership at the Admiralty Bar.

In referring to this work Mr. Stillman frequently said that the foundation of the Admiralty business that he controlled and that became an important factor in the general business of his firm was the case of the *Circassian*. This litigious steamer, in the course of her violent legal career was claimed by Courts of differing jurisdictions and seized by a variety of sheriffs and United States marshals. She presented for instant determination, or suggested for determination at a later period, an interesting assortment of unsolved problems. Among these was the right of lien for supplies or repairs to a domestic vessel; the efficacy of proceedings under a State statute to enforce such a lien; the power of the Supreme Court of the United States to create a lien by rule of court; the enforcement in Admiralty of liens created by State statute; the right of a ship's master to give valid bottomry in a foreign port without communicating with owners where communication is practicable; the respective rights of mortgagee and of creditors for supplies and repairs, and questions of authority and right of possession as between sheriff and marshal.

Through this labyrinth of litigation Mr. Stillman kept unbroken the thread that conducted his client, the mortgagee, to safety.

Following the *Circassian* Mr. Stillman's admiralty practice grew rapidly and it became his good fortune to be identified with a determination of the policy of our Admiralty Courts in respect of other questions upon which there was variance between maritime nations.

Such was the case of the *Scotland*, 105 U. S., 24, where the Supreme Court relieved the owners from a decree for the value

of the ship *Kate Dyer* and her cargo, sunk by collision, and, while holding the *Scotland* in fault for the collision, granted to her English owners the limitation of liability accorded by our Statutes, although the collision occurred on the high seas.

By this decision not only were Mr. Stillman's clients relieved from the payment of a large sum decreed, but a new principle was definitely incorporated in the law of this country.

Such also were the cases of the *Pennsylvania*, 19 Wallace, 125, and the *Atlas*, 93 U. S., 304, where, as in many other cases, the results were in large measure attributable to Mr. Stillman's boldness in laying out the line of attack or defense and to his resourceful aid in conference with his associates.

The argument of many cases in which Mr. Stillman was collaborator was made by his gifted senior partner, Mr. William Allen Butler, but his part in the work was recognized and credited to him by his partners, his clients and by the Admiralty Bar.

In the later years of his active professional life, Mr. Stillman withdrew in a measure from Admiralty practice as his ambition attracted him to the larger field of Corporation Law.

As intimate advisor of the Central Trust Co., for which his firm was counsel, and as counsel for numerous individuals and corporations in control of large business interests, he took a leading part in many important litigations and negotiations.

Among these was the litigation between the Sultan of Turkey and the Providence Tool Company concerning rifles valued at about three-quarters of a million dollars; the controversies of the bondholders of the narrow gauge system of railroads in Ohio, Indiana and Illinois, where Mr. Stillman's contentions in respect to many complicated questions affecting car trusts were successfully maintained; the cases of the Ohio Central Railroad Company bondholders where questions of difference arose between Judges of the United States Court in Ohio and the District Judge in West Virginia; the foreclosure of mortgage of the East Tennessee, Virginia and Georgia Railroad Company and the reorganization of the company; the litigation over the fifteen million dollar mortgage of the New York, Chicago and St. Louis Railroad Company and the reorganization of the company. These instances, among many others of equal importance where Mr. Stillman was associated as leading counsel in railroad mortgage foreclosures and in railroad organization and

reorganization give only an intimation of his engrossing activity and of the confidence of his clients.

So much of his work was of an advisory and executive character that his name appears less frequently in the reports of cases than the names of many who acted under his guidance.

Although an eloquent and persuasive speaker, his prominence in the directions outlined above was greater than in the work of the advocate.

Mr. Stillman's large experience and high repute in corporate litigation and law inclined him naturally towards corporate management which he undertook in 1888 in connection with the interests of the Mark Hopkins Estate. This estate represented substantially one-fourth ownership of the Southern Pacific Company and of numerous railroads and business ventures controlled by that company or allied in interest with it. Its management involved much labor and responsibility. This occupied Mr. Stillman during ten years ending in 1898, and gradually engrossed his time to such an extent that he withdrew from the active practice of the law. In this connection he became and for many years remained a director of the Southern Pacific Company, President of the San Antonio and Arkansas Pass Railroad Company, director of the United States National Bank and director and business adviser of many minor companies. Like many other managers of large affairs, he was accredited at times with the ownership of the property he represented, and was made subject for the censure that is often directed against those who are rich or are supposed to be rich. Apocryphal stories of his wealth and his profits were told and favorably accepted by the newspaper reading public. The actual proportion of his life and efforts devoted to this and to his other labors is indicated in the foregoing sketch.

Mr. Stillman married January 10, 1865, and passed the greater part of an exceptionally happy family life in the City of Brooklyn. There he became in 1883, a member of the Church of the Pilgrims. He was a trustee of that church from 1883 to 1904 and was president of the Board of Trustees for four terms. He was a director of the Long Island Historical Society from 1884 until the time of his death and chairman of its Executive Committee for several years.

These activities brought him into close companionship with the late Rev. Dr. R. S. Storrs, and a warm friendship existed

between the two. Mr. Stillman was also an interested and useful worker with the Young Men's Christian Association and gave effective help to its Naval Branch.

His wife, who was Miss Charlotte Elizabeth Greenman of Mystic, Conn., a lady of forceful and most attractive character, died February 20, 1901. Four daughters survive them.

Mr. Stillman's death occurred September 4, 1906, at Lisieux, France, as a result of an automobile accident near that place on July 18th.

One of our most respected judges, who knew him well and was a little his junior in years, writes of Mr. Stillman:

"The thing that was always associated the most with my early recollection of him was his eagerness and zeal in planning and doing generous things for his friends. I have never known a man to take more pains to help young men who needed professional aid. That is the feeling of all of his old friends and that trait joined to his bright and cordial manner and his unusually attractive address, was the main reason, I think, why so many of them had so warm an affection for him. He was universally recognized while in active practice as one of the most efficient and successful lawyers in the city; but the thing for which he is best remembered by his old friends, is the warm affection which he felt for them."

Mr. Stillman was one of the signers of the call made December, 1869, for the organization of this association.
